

Charles D. Vollmer, “Chuck”

Mr. Vollmer is the author and founder of Jobenomics. *Jobenomics*, the book, deals with the economics of business and job creation. Jobenomics produces a series of other comprehensive books and reports including 200-page quarterly employment and unemployment analyses that address U.S. labor force issues, emerging business trends and economic growth. Jobenomics, the National Grassroots Movement, has a goal of creating 20 million net new US private sector jobs over the next decade. The Movement has a following of an estimated 15 million people. *Jobenomics.com* averages 500,000 monthly hits and is growing at a rate of 400% per year.

Jobenomics national-level initiatives include the Energy Technology Revolution, Network Technology Revolution, Urban Mining and Agricultural America. Jobenomics' city and state programs include Jobenomics New York City (1,000,000 net new jobs by 2026 across all five NYC boroughs), Jobenomics Baltimore City (100,000 net new jobs by 2026 with emphasis on financially and socially distressed West Baltimore), Jobenomics Delaware, Jobenomics North Carolina, Jobenomics Southern Maryland and Jobenomics Workforce Reentry Center-Phoenix (focused on creating employment opportunities for ex-offenders, gang member and at-risk youth). Other state and city programs are also in development. Mr. Vollmer is the CEO of eCyclingUSA, which is part of the Jobenomics Urban Mining Initiative to reclaim high-value materials from electronic waste items and use the proceeds to finance highly-scalable startup businesses. He is the Board Vice Chairman of ACTS Freedom Farms, dedicated to producing 25,000 veteran-owned U.S. micro-farms employing 100,000 people in the next five years.

In 1996 to present, Mr. Vollmer founded VII Inc., a strategic planning, systems engineering and investment capital firm specializing in government and business initiatives. VII's clients include major domestic and international government agencies and corporations. Mr. Vollmer regularly works with U.S. Congress, Department of Defense and government officials. He authored the US Air Force's VECTORS and Global Information Operations efforts, the National Guard's VANGUARD campaign, and the Rapid Dominance and Shock & Awe concepts. Corporations include numerous Fortune 50 companies. He also helps innovators and entrepreneurs start small businesses. VII Enterprise Solutions designed and maintained data networks for 20 U.S. Passport Agency data centers.

From 1999 to 2007, Mr. Vollmer was under contract to the U.S. Central Command to assist moderate Arab leaders to develop strategies and operational concepts for coalition building regarding the war on terror. In this capacity, he developed several hundred U.S./Arab strategy and policy documents and led twelve symposia in the Middle East attended by officials in the Arab Gulf, Europe and the United States. Four additional symposia dealt with international Information Operations, Computer Network Defense, Network Centric Warfare and C4ISR. He frequently lectures on the MidEast, Islam, Arabs and cooperative engagement. He is on the Advisory Board of the International Center for Religion & Diplomacy, a nonprofit dedicated to conflict prevention and resolution.

From 1991 to 1996, Mr. Vollmer was a Partner at Booz Allen & Hamilton. He organized and managed one of the largest U.S. consortiums involved with industry privatization in the former Soviet Union. These consortiums accomplished the largest privatization effort in history converting over 70% of state-owned industries to private enterprises. He was a co-founder of the Community Learning and Information Network a distance-learning corporation that has installed several hundred sites across America. Mr. Vollmer was also instrumental in establishing the National Automotive Center in Warren, Michigan.

From 1985 to 1991, he founded and was the Vice President/General Manager for General Dynamics' new business and high-technology organization, called the Defense Initiatives Organization (DIO). In this capacity, he founded a dozen new organizations including a Nuclear Biological Chemical Reconnaissance System that was used extensively in Operation Desert Storm, a Strategic Defense Initiative Division, and a Diamond Film Development Company involved in growing synthetic diamond substrate material for electronic systems. Within three years, the DIO captured over a quarter of a billion dollars of contract awards. Prior to the DIO, he was Corporate Director of Strategic Planning and Operations Analysis when General Dynamics was a *Fortune 50* company and the world's second largest aerospace corporation.

From 1979 to 1985, he was a McDonnell Douglas senior engineer on the initial design teams of F-15E and Stealth aircraft. He also managed the marketing effort for the \$32 billion sale of the F-15E to the USAF.

Mr. Vollmer served 10 years active duty in the USAF and 13 years with the Air National Guard. He accumulated over 3,000 hours in various fighter aircraft, flew 175 combat missions in Southeast Asia, and received six Distinguished Flying Crosses and eleven Air Medals. Mr. Vollmer received a B.S. degree in Engineering Management from the USAF Academy, a Masters Degree in Education from Northern Arizona University and attended Massachusetts Institute of Technology's Sloan School of Management for Senior Executives. He is married to his high school sweetheart, Trish Eagan, from Lewisburg, Pennsylvania. Their son was the President of VII Enterprise Solutions and is now a CISCO Senior Systems Engineer.
