

Charles D. Vollmer, “Chuck”

Mr. Vollmer is the author and founder of Jobenomics (<https://jobenomics.com>), which deals with mass-producing startup businesses and jobs with an emphasis on minorities, women, youth, veterans, and other hopefuls in underserved communities. Since its launch in 2010, Jobenomics garnished wide-spread support for its economic, community, small business, and workforce development efforts. Today, the Jobenomics National Grassroots Movement reached an estimated 30 million people via lectures, the Jobenomics website, and the Jobenomics America TV show. Dozens of communities (neighborhoods, cities, and regions) in North America, South America, and Africa now have Jobenomics Chapters.

In response to mitigating the raging effects of the coronavirus and getting millions of American’s back to work, Jobenomics/Abbot Genetics (<https://abbotgenetics.com>) partnership imports and distributes the world’s leading COVID-19 antibody diagnostic and test kits. The Jobenomics/National Faith-Based Empowerment Coalition (<https://nfbec.org>) partnership promotes underserved and under-resourced community transformation via Opportunity Zone Fund financing. The Jobenomics/Emerald-Planet TV (<http://www.emerald-planet.org>) partnership is identifying the world’s 1,000 best green business practices. Mr. Vollmer is the CEO of eCyclingUSA, which is part of the Jobenomics Urban Mining initiative to reclaim high-value materials from municipal waste streams. He is the Vice Chairman of ACTS Freedom Farms (<https://www.actsffa.com/>) Advisory Board, an organization dedicated to producing veteran-owned US micro-farms. He is on the Board of the Combat Soldiers Recovery Fund (<https://combatsoldiersrecoveryfund.org>), a nonprofit that provides grants to disabled veterans.

In 1996 to present, Mr. Vollmer founded VII Inc, a strategic planning, systems engineering, and investment capital firm, specializing in government and business initiatives. VII’s clients include major domestic and international government agencies and corporations. He is the author of the US Air Force’s VECTORS and Global Information Operations efforts, the National Guard’s VANGUARD campaign, and the Rapid Dominance concepts. Corporations include numerous Fortune 50 companies. VII also helps innovators and entrepreneurs start small businesses. VII Enterprise Solutions designed and maintained data networks for the US Passport Agency data centers.

From 1999 to 2007, Mr. Vollmer was under contract to the US Central Command to assist moderate Arab leaders in developing coalition-building strategies and operational concepts. In this capacity, he led twelve symposia in the Middle East attended by officials in the Arab Gulf, Europe, and the United States and wrote several hundred U.S./Arab coalition-building documents. Today, Mr. Vollmer frequently lectures on Mideast, Islam, Arabs, and cooperative engagement. He was on the Advisory Board of the International Center for Religion & Diplomacy, a nonprofit dedicated to conflict prevention and resolution.

From 1991 to 1996, Mr. Vollmer was a Partner at Booz Allen & Hamilton. He organized and managed one of the largest US consortiums involved with industry privatization in the former Soviet Union. These consortiums accomplished the most extensive privatization effort in history, converting over 70% of state-owned industries to private enterprises. He was a co-founder of the Community Learning and Information Network, a distance-learning corporation that has installed several hundred sites across America. Mr. Vollmer was also instrumental in establishing the National Automotive Center in Warren, Michigan.

From 1985 to 1991, he founded and was the Vice President/General Manager for General Dynamics’ new business and high-technology organization, called the Defense Initiatives Organization (DIO). The DIO started dozens of new enterprises, including a Nuclear Biological Chemical Reconnaissance System that was used extensively in Operation Desert Storm, a Strategic Defense Initiative (aka Star Wars) Division, and a Diamond Film Development company. Within three years, the DIO captured over a quarter of a billion dollars of contract awards. Before the DIO, he was Corporate Director of Strategic Planning and Operations Analysis when General Dynamics was a Fortune 50 company and the world’s second-largest aerospace corporation.

From 1979 to 1985, he was a McDonnell Douglas senior engineer on the first design teams of F-15E Strike Eagle and Stealth aircraft. He also managed the marketing effort for the \$32 billion sale of the F-15E to the USAF.

Mr. Vollmer served ten years on active duty in the USAF and 13 years with the Air National Guard. He accumulated over 3,000 hours in various fighter aircraft, flew 175 combat missions in Southeast Asia, and received six Distinguished Flying Crosses and eleven Air Medals. Mr. Vollmer received a BS degree in Engineering Management from the USAF Academy and a Master’s in Education from Northern Arizona University. He is a graduate of the Massachusetts Institute of Technology’s Sloan School of Management for Senior Executives. He remains happily married to his high school sweetheart, Trish Eagan, from Lewisburg, Pennsylvania. Their son was the President of VII Enterprise Solutions and now manages a Systems Engineering Group at Cisco, a leading IT conglomerate.
